sustainable business

Jasco Distributing

Jasco Distributing is committed to improving its performance with regards to environmental sustainability, firstly as an objective for the company and secondly with the products and systems we offer to our customers.

A structure of procedures, continued reviews and independent accreditation in conjunction with our supply partners, has been instigated to ensure that the Jasco Distributing Team and its activities be increasingly friendly to the environment.

We live in an age where consumers have the power to make a big difference in the world simply through the products they choose to purchase. Industry plays a big role in shaping our communities and can have a huge impact on our environment, so it is up to the consumer to demand sustainable alternatives.

At Jasco Distributing we are aware about how the products and services we provide our customers could potentially impact on the environment, that is why we created "Sustainable Business".

Sustainable Business is all about encouraging others to think about how the products or services they use, could impact on the environment. We are committed to reducing our own footprint and environmental impact by providing more sustainable alternatives to traditional products and working alongside our customers to help them choose more sustainable product options.

We have a growing range of environmental products and systems and are committed to aligning ourselves with supply partners who share similar values. We are constantly evaluating new sustainable products and high emphasis is placed upon sustainability when evaluating any new potential suppliers.

Please think about the bigger picture and join us on our journey towards a greener world.

COMPANY VISION...

Continue to build a business that is admired and respected for our values, ethics and social responsibilities.

WHY WE ARE IN BUSINESS...

Make a beneficial difference by sharing our wisdom and industry knowledge to help inspire change for the greater good of the people and their local communities.

A VISION TO ACHIEVE GREAT THINGS...

Our story begins over 35 years ago when our founder had the vision to create a great company that was innovative and responsive, but with strong commitments to social and environmental responsibility. One that was dedicated to serving the best interests of its clients, based on “Real Values and Benefits”. A truly great company!.

From those humble beginnings and the dream to become “great”, fast forward to today. Not only is Jasco Distributing a great company, but we continue to aspire to achieve great things. For now, we can celebrate the fact that we are one of the greatest independent distributors in our industry and we’re proud of that achievement.

Many people ask why we do what we do? Well, how many business can say that their products and services have the ability to positively change the way others do business, no matter what industry.

At Jasco, we believe in making a “Beneficial Difference”, by sharing our wisdom and knowledge to help inspire change for the greater good of the people and their communities. This is why Jasco Distributing is “Your Supportive Supply Partner”. It is the reason why we are in business.

So join us on our journey and take your own step towards greatness.

Cleaning Products & Hygiene Dosing Systems

DIVERMITE DOSING SYSTEM

Sparkling clean kitchens and rooms at low predictable cleaning costs...

The Divermite System offers economy by delivering superior performance cleaning products as highly concentrated liquids. The system combines super-concentrated product formulations with accurate dosing. Each 1.5L pouch makes from 75 up to 300 ready to use bottles, providing exceptionally low cost in use.

NO COSTLY APPLICATION ERRORS

Divermite is easy to use, helping you to avoid costly application errors. Refills, bottles and dispenser are easily identifiable by the colour coded system and the unique spray bottle key neck ensures that the bottle only fits the corresponding dispenser.

CLEAN AND SAFE WORKING CONDITIONS

Small packs are easy to handle and store, eliminating bulky containers. The small pouch can be easily compacted and folded after use, resulting in 92% less plastic waste than conventional packaging. Installing Divermite is easy - no plumbing or electrical connections are needed.

| CODE | PRODUCT | DILUTION | UOM |

SMARTDOSE SYSTEM

Safe, **M**easurable, **A**ccurate, **R**eliable, **T**raining Friendly.
S.M.A.R.T. dosing system...

SmartDose is an innovative dosing platform for super concentrate daily cleaners and disinfectants setting a new industry benchmark of accuracy, simplicity and safety.

NO COSTLY APPLICATION ERRORS

The Smart pump technology is very practical and uses icon based instructions. This makes it possible to vary shot sizes for any of the different cleaning methods including spray cleaning, bucket cleaning or scrubber driers, but requires minimal user training or measuring. And being a closed system, it provides the maximum level of safety and cost control.

CLEAN AND SAFE WORKING CONDITIONS

Small packs are easy to handle and store, eliminating the use of untidy bulky containers. The small container can be recycled after use, resulting in less plastic waste than conventional packaging.

J-FILL QUATTRO SYSTEM

SMARTVALVE waterfed dosing system...

The QUATTRO dispenser is a plumbed in dosing system for ultra concentrated products. Equipped with a SMARTVALVE technology, making dilution control faster, easier and safer.

NO COSTLY APPLICATION ERRORS

The system allows you to safely store and choose from four different products using the SMARTVALVE selector, which automatically selects either low flow bottle filling or high flow bucket filling.

CLEAN AND SAFE WORKING CONDITIONS

J-Fill Quattro is a closed loop system, meaning users cannot come in contact with concentrated chemicals. This system is suitable for larger establishments, ie larger accomodation, hotels, holiday parks or food processing plants.

Wall mounted, identifiable system

Closed Loop System
Safe and easy bottle installation

Smart Valve product selector

One handed, low flow bottle fill (up to 1ltr bottles)

High flow bucket/scrubber fill via a remote hose

CITRUS MULTI | Citrus Based Cleaner Degreaser | 5Ltr/20Ltr

JBCIT5 / JBCIT20

Citrus Multi is a powerful D-Limonene based natural universal cleaner derived from citrus fruits. Formulated with a blend of biodegradable surfactants for the effective removal of organic based soiling, grease, fats and other dirt and grime. Because of the high dilution rate, Citrus Multi can also be used for heavy duty degreasing and removal of other soils including oils, waxes, body fats, soap scum and carbons. It can also be used selectively for carpet and laundry spotting.

MPI Approved C31

CITRI KLEEN | All Purpose Cleaner / Disinfectant | 5Ltr/20Ltr

JBCITCLEAN5 / JBCITCLEAN20

A general purpose germicidal cleaner with a fresh citrus fragrance, for regular cleaning of walls, doors, floors, and hard surfaces including showers, toilets, wash basins and tables. Cleans, disinfects and re-odorises all in one action.

MPI Approved C32

AP SPICE / AP BUBBLE | All Purpose Cleaner / Disinfectant | 5Ltr/20Ltr

TAJAP5 / TAJAP20

A general purpose germicidal cleaner with a fresh Spice or Bubblegum fragrance, for regular cleaning of walls, doors, floors, and hard surfaces including showers, toilets, wash basins, tables. Cleans, disinfects and re-odorises all in one action. Also available in Bubblegum Fragrance (5ltr only TAJAPB5)

MPI Approved C32

LOO KLEEN | Toilet & Washroom Cleaner | 5Ltr

JBL00CLN5

Powerful lactic acid based cleaner with a triple action that cleans, deodorises and descales. For effective disinfecting and removal of soils, scale and uric encrustation from toilets and urinals as well as soap scum and mineral deposits from shower recesses and basins. It is safe on stainless steel, tiles and porcelain. The strong fresh fragrance and powerful bacteriostatic properties has a lasting residual effect.

GLEEM | Glass & Window Cleaner | 5Ltr

JBGLASSCL5

A concentrated solution for cleaning glass, windows, mirrors, stainless steel, chrome, enamelled or tiled surfaces. Provides exceptional streak free results.

HAND KLEEN | Flowing Hand Soap | 5Ltr

JBHANDCLN5

A mild pH neutral, liquid hand soap made from coconut oils, with a pleasant fragrance and skin conditioners producing a rich creamy lather which is effective yet gentle on hands. Designed for frequent use via a pump pot or dispenser.

LEMON FRESH / MINT FRESH | Dish Liquid | 5Ltr/20Ltr

JBHIFOAM5 / JBHIFOAM20

A highly effective, general purpose detergent with a fresh lemon or mint fragrance, for manual dish washing and general cleaning. A high ratio of active ingredients produces a luxurious foaming action which is soft on hands yet extremely effective on even the heaviest soiling. Also Available in Mint Fragrance. (JBMINT5 / JBMINT20)

MPI Approved C32

BRITE WHITE | Liquid Bleach | 5Ltr/20Ltr

JBBL5 / JBBL20

Removes stains, kills germs and deodorises. A general bleach suitable for machine washing and soaking, also suitable for removing stains and mildew from some fabrics and as a sanitiser in bathroom and toilet areas.

JASCO RED | Heavy Duty Degreaser | 5Ltr/20Ltr

A Heavy Duty alkali based degreaser formulated for hard surface cleaning in food processing, hospitality or mechanical applications.

MPI Approved C31 & C38

TAJR5 / TAJR20

SCRUB KLEEN | Creme Cleanser | 5Ltr

A powerful creme cleanser designed to tackle tough cleaning jobs without having to resort to harsh scourers. Ideal for removing stubborn marks and stains off sinks, basins, showers, toilets, tiles, stainless steel and other hard surfaces

JBSCRUB5

WASH IT | Machine Dishwasher Detergent | 5Ltr/20Ltr

A high strength alkali commercial dishwasher detergent specifically formulated for New Zealand water conditions in machine dishwashers and glass washers. Highly effective and exceptionally low cost in use (cost per wash).

MPI Approved C31

JBWASHIT5 / JBWASHIT20

DRY IT | Machine Dishwasher Rinse Aid | 5Ltr/20Ltr

A premium quality final rinse additive for use in commercial dishwashers to produce sparkling, streak free drying of crockery, cutlery and glassware.

MPI Approved C31

JBDRYIT5 / JBDRYIT20

DYNA BRITE | Liquid Laundry Detergent | 5Ltr

A premium liquid detergent that gives outstanding results in both hot and cold water. The advanced formula removes the heaviest soils while making colours brighter and whites whiter. Suitable for both top and front loading machines.

TALLD5

OXY POWER | Jasco Laundry Powder | 15kg

Oxy Power is a dual enzyme laundry powder with the added power of active oxygenating bleach and optical brighteners. It is designed for use in both top and front loading machines and can be used in a range of water temperatures.

JBOXPOWER

Need Dilution Control?

ASK about our Bulk Product Mixing Stations...

Defined cleaning system with dose control and the price benefits of bulk cleaning products. Plumbed in systems that meet watermark standards, accurate dilution straight into a spray bottle or bucket. Up to 4 products for spray bottle fill, 1 product bucket fill. Contact your Account Manger or our Customer Solutions Team for more information.

Are you making environmentally responsible choices?

Jasol EC Range products are made almost entirely from renewable plant resources rather than oil-based ingredients and are readily biodegradable, high performing, cost effective and Certified by GECA (Good Environmental Choice Australia).

JASOL ECO | MANUAL DISHWASHING LIQUID | 5Ltr

JAECO

ECO is an environmentally responsible and highly effective dishwashing liquid. Cuts through grease and grime in both hard and soft waters. ECO is made from renewable plant resources, is readily biodegradable and GECA Certified.

JASOL EC1 | CLEANER SANITISER | 5Ltr

JAEC1SCNR5

EC1 is an environmentally responsible and effective all in one cleaner and sanitiser. EC1 is readily biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients. EC1 is fragrance free making this an ideal product for food service and preparation areas.

JASOL EC2 | NO-RINSE SURFACE SANITISER | 5Ltr

JAEC2NRS-5

EC2 is an environmentally responsible and effective no-rinse surface sanitiser. EC2 is readily biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients. EC2 is chlorine free making this an ideal product for food contact surfaces and preparation areas.

JASOL EC3 | CLEANER DEGREASER | 5Ltr

JAEC3FLD5

EC3 is an environmentally responsible and effective heavy duty cleaner and degreaser that is ideal for removing heavy soiling such as grease and oil. EC3 is non-flammable, phosphate free and readily biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients.

JASOL EC4 | GLASS & CHROME CLEANER | 5Ltr

JAEC4

EC4 is an environmentally responsible and effective glass, mirror and chrome cleaner, that leaves streak free results. EC4 utilises an ammonia free formula that is readily biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients.

JASOL EC9 | CITRUS CLEANER SANITISER | 5Ltr

JAEC9

EC9 is an environmentally responsible and effective all in one cleaner and sanitiser with a strong citrus lime fragrance. EC9 is readily biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients. Suitable as a spray & wipe or floor cleaner used in everyday hard surface cleaning.

JASOL EC11 | TOILET BOWL CLEANER | 5Ltr

JAEC11

EC11 is an environmentally responsible dual action, effective toilet bowl cleaner and deodoriser. With regular use EC11 will effectively remove rust, scale and uric acid build up and is readily biodegradable and GECA Certified. EC11 is made from renewable plant resources rather than oil based ingredients.

GECA - Good Environmental Choice Australia certified products, represent the benchmark for sustainable products in Australia. GECA is recognised by ECNZ (Environmental Choice New Zealand) as a comparable eco-standard.

JASOL EC12 | DISHWASHER POWDER | 5kg

JAEC12DWP

EC12 is an environmentally responsible and highly effective dishwasher powder. Using a low foaming and aggressive soil attacking formula it quickly cuts through grease and grime in both hard and soft waters, leaving crockery and cutlery sparkly clean. EC12 is made from renewable plant resources, is readily biodegradable and GECA Certified.

JASOL EC13 | AUTO DISHWASHER DETERGENT | 5Ltr

JAEC13WD5

EC13 is an environmentally responsible super strength commercial warewash detergent, with a low foaming, rinse free formula that cuts through grease in all water conditions. EC13 is readily biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients.

JASOL EC14 | AUTO DISHWASHER DRYING AID | 5Ltr

JAEC14

EC14 is an environmentally responsible and highly effective rinse additive for commercial dishwashers. EC14 prevents waterspoting ensuring streak free results. EC14 is readily biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients.

JASOL EC15 | AUTO GLASSWASH DETERGENT | 5Ltr

JAEC15GLW5

EC15 is an environmentally responsible and effective glass washer detergent. When combined with correct temperatures, EC15 produces crystal clear results in all water conditions. EC15 readily biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients.

JASOL EC16 | CROCKERY SOAKER | 5Ltr

JAEC16PS

EC16 is an environmentally responsible and effective cutlery and crockery pre-soak, utilising a powerful enzyme based formula to break down built up and stubborn stains such as coffee and tannin marks. E16 can also be used as a laundry presoak and is readily biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients.

JASOL EC17 | NON CAUSTIC OVEN CLEANER | 5Ltr

JAEC17

EC17 is an environmentally responsible non caustic and non corrosive oven and grill cleaner that is ideal for removing fats, grease and oily residue from ovens, grills, range hoods and deep fryers. EC17 is biodegradable and GECA Certified, made from renewable plant resources rather than oil based ingredients.

JASOL EC28 | BATH & SHOWER CLEANER | 5Ltr

JAEC28

EC28 is an environmentally responsible superior strength bath and shower cleaner designed to remove soap scum and body fats commonly found in bathrooms. EC28 is chlorine free and non corrosive with a strong long lasting tropical vanilla fragrance which makes it suitable for all bathroom surfaces. EC28 is readily biodegradable and GECA Certified. EC28 is made from renewable plant resources rather than oil based ingredients.

Please remember, all chemical products can have an effect on the environment if misused. To ensure the product has minimal impact on the environment ALWAYS use the product as directed and dilute to the correct levels as stated on the product label. Refer to the products Safety Data Sheet for more information.

NILodor[®] Inc. SOLUTIONS GUIDE

NILOTRON METERED AEROSOLS

Fit all Nilotron Metered Dispensing Systems.

- Environmentally safe odour counteractant for long term neutralisation
- Delivers 3,100 metered releases
- Eliminates odours in washrooms, foyers, fitness centres and aged care

NILOSMOKE HAND HELD AEROSOL

Concentrated odour eliminator aerosol.

- Neutralises smoke odours caused by cigars, cigarettes, cooking and small fires
- Simple to use
- Helps refresh any room

NILOFRESH POWDERED RUG & ROOM DEODORISER

A non-abrasive, vacuum-safe granule that will help control odours in all carpets and rugs.

- Slow to absorb moisture from the air
- Extended odour neutralisation for carpeted surfaces
- Made from ground corncobs rather than baking soda

Fragrances: Cucumber Melon, Red Clover Tea Size: 340g

NILOGEL LIQUID SPILL ABSORBENT & DEODORISER

Liquid absorbent granules that turn into a gel for an easy clean.

- Ideal for cleaning up organic based matter such as vomit, blood and urine
- Absorbs over 100 times its own weight
- Non-toxic and biodegradable

Fragrance: Original Size: 227g

NILIUM WATER SOLUBLE ODOUR NEUTRALISER

Safe for use on any water-safe surface.

- Add to mopping or cleaning solutions
- For use with carpet care rather than carpet extraction
- Safe to use with cleaners, disinfectants and anything water soluble

HEAVY DUTY BIN WASH

A simple spray on application product to assist in reducing odours, grease and organic buildup in problem areas.

- Helps reduce slipping and deters flies and insects
- To be used with Nilodew Granular Deodoriser for optimum results
- Perfect for dump bins, compactors, loading docks, floors, garbage bins

Fragrance: Original Sizes: 0.936L, 3.78L

NILOTRON METERED AEROSOL DISPENSER

Provides continuous 24 hour odour control.

- Provides 7, 15 and 25 minute dispense settings
- Features battery and refill indicator lights
- To be used in conjunction with Nilium and Urine Digester fragrances for a complete odour control program

NILODOR URINAL SCREENS

Contain up to 25% more fragrance compared to traditional urinal screens.

- Environmentally friendly formulation (non-para)
- Help prevent debris and foreign object from clogging drains
- Unique design to reducing splashing and staining

PASSIVE ULTRA AIR CARE

Room deodorizer cabinet and refills, anywhere air freshener.

- No spilling or breaking
- Easy to use
- No batteries required

Fragrance: Cucumber Melon, Soft Linen & Tango Mango

NILOZYME TRAP & DRAIN TREATMENT

A treatment that will reduce the maintenance and odour in grease traps, septic systems and open clogged drains.

- Liquefies and digests complete proteins, cellulose and starch
- Non-corrosive, non-toxic
- Resilient to bleach, disinfectants and many other chemicals

Fragrance: Original Sizes: 0.936L, 3.78L, 18.9L

BIO-ENZYMATIC URINE DIGESTER

Breaks down & digests organic waste and odour in carpet and on hard surfaces.

- Bacteria, enzymes and odour counteractant
- Spray or mop
- Eliminates odour in carpet, upholstery, washrooms and drain lines

NILODEW GRANULAR DEODORISER

A clay and zeolite granular deodoriser that helps control odours with a wide variety of uses.

- Fights odours in dump bins, compactors, ash trays and sanitary bins
- Contains citronella to help deter flies and pests
- Environmentally friendly & biodegradable

Fragrance: Original Size: 3.6kg, 27kg

One product will not eliminate your washroom odours **but our program will.**

ENZYMES - What's all the fuss?

Why choose enzymated laundry products over non-enzymated?

Enzymes enable effective cleaning at lower temperatures than required by non-enzymated detergents. Enzymated cleaning products are effective on a wider range of soiling and are a more environmentally sustainable alternative.

Why choose Oxygenated Bleach over Chlorinated Bleach?

Oxygenated Bleach cleans and sanitises clothes and other fabrics. It hygienically removes stains and odours and gives clothes extra brightness. Oxygen bleach is safer on dye fast coloured garments over chlorine bleach. Suitable for soaking applications or can be added as a booster to hot machine washes.

ESG ASIA PACIFIC

WITH A LEGACY THAT DATES BACK TO 1923, WE ARE THE LEADER IN THE MANUFACTURING AND SUPPLY OF 100% RECYCLED PAPER AND PREMIUM HAND HYGIENE SOLUTIONS IN THE AWAY-FROM-HOME WASHROOM MARKET

 ESG Asia Pacific strive to adhere to strident ethical standards when sourcing products, packaging and developing system designs so by choosing ESG Asia Pacific you are setting a standard of corporate responsibility that benefits the environment and your community.

SETTING THE STANDARD IN HYGIENE FOR THE AWAY-FROM-HOME MARKET

ESG FOUNDATION

A portion of all sales goes to the ESG Foundation which supports community projects that help develop the leaders of the future, so that they can inspire their own communities and improve the standards of living for future generations.

ESG Foundation is the proud sponsor of the Aspire Program, a unique initiative from Ignite Sport.

The Aspire Program offers 260 student participants, from 30 secondary schools, the opportunity to consider character, values, balance and heart through sport and recreation.

Green Washrooms

Does it really make sense to cut down trees to make toilet paper?

Green Washrooms is our our common sense approach to washroom products and is based around thinking through a product’s full life cycle. Once a product is used and goes down the drain it is up to nature to dispose of it. Thoughtful Consumption is about stretching out the life cycle of the fibre and ensuring it is recycled at least once, preferably 3-4 times, before we use it in washroom products. With our Green Washrooms program, you can rest easy knowing that the products are produced from sustainable resources and they are not harmful to the environment once they enter the waste systems. Our Green Washroom Program incorporates 100% PCW (Post Consumer Waste) recycled paper products with a Green Certified hand hygiene program.

Technology to \$ave you, and your Environment

| | |
|---------------------------------------------------|----------------------------------------------------------|
| 30% Savings | 45% Less waste |
| 100% PCW Pulp post-consumer waste. No trees used! | Giving back 50c from every carton towards ESG foundation |

(*Values are indicative averages based on ESG site trial data across AUS/NZ schools)

Opticore Revolution Controlled-use Dispensing System
The Opticore Revolution 3-roll tissue dispenser is a high-capacity system, designed for larger volume washrooms to help minimise overuse of toilet tissue. The corresponding Opticore toilet tissue uses split core technology that only allows the second roll to be accessed once the roll in use has completely finished. When one roll of tissue is used, simply turn the dial to advance to the next roll. It’s that simple!

EcoSoft 100% PCW Recycled Washroom Paper

EcoSoft Green Seal™ washroom paper is made from 100% PCW (post consumer waste). Breaks down to pulp during the flush cycle to minimise blocked drains.

Hand Hygiene - Foam Soap

GOJO Industries are the global leaders for skincare, health and hygiene solutions for the away from home market. Their portfolio includes hand cleaning, handwashing, hand sanitising and skin care formulations under the GOJO and PURELL brand names. GOJO is known for their superior dispensing technology, engineered with attention to design and functionality. Their complete program offers “Green Certified” formulations that sets the standard for a safe and healthy environment.

Hand Hygiene - Sanitiser

GOJO GREEN HYGIENE™ Solutions,
a Healthy Decision for **PEOPLE,**
PLACES and the **ENVIRONMENT**

ESG ASIA PACIFIC GOJO Purell®

PURELL Hand Sanitiser was first invented in 1988 by GOJO to meet the needs of healthcare providers and restaurants operators looking for ways to reduce the spread of germs. Healthcare workers needed to kill germs on their hands when they couldn't get to soap and water whilst restaurant operators needed extra protection to reduce the risk of food contamination.

Today, PURELL Hand Sanitiser remains one of the most recognised brands in the world. It defines the hand sanitiser category and is the brand most preferred by professionals and consumers worldwide.

All Skincare Needs in One Deb Stoko Range

The most comprehensive range of workplace skin care, to address the varied health and safety needs of industrial, commercial, food service, aged care and education sectors.

Environmental commitment

FORWARD THINKING: The pioneer of water-saving foam soap and low-waste dispensing.
NO WASTE: Life time warranty on dispensers and recyclable cartridges.
GREEN CERTIFICATION: Green certified formulations

Protect

Protect the skin against contaminants, irritants and conditions. Apply before work starts.

Cleanse

Hand cleaners developed to suit different environments and contaminant types.

Sanitise

Hand sanitiser that can be used with or without water to kill germs and provide a high level of hand hygiene.

Restore

Maintain the skin in a healthy condition by keeping it soft and supple, avoiding dryness. Apply at the end of the work day.

All Deb Stoko dispensers are BioCote® Protected inhibiting the growth of a broad spectrum of bacteria and moulds.

Call us today to get the right skincare system for your needs 0800 527 260.

Make hands matter in the workplace.

Industrial Hand Cleaner

All Industrial Skin Care Needs in One Deb Stoko® Range

Deb Stoko® is the most comprehensive range of high quality products covering the whole spectrum of skin care needs and is the global leader when it comes to industrial handcare. Hands are vital tools in an industrial environment, that is why the Deb Stoko® range has been carefully devised to respect both job requirements and personal preferences.

Rubbermaid Spill Mop Kits

Rubbermaid
Commercial Products

**SPILL MOP
REMOVES
HAZARDS
QUICKLY**

Liquid absorbed turns in a GEL so Floors dry faster vs using a cotton string mop.

QUICK ACCESS
Wall mounted centre

DISPOSABLE
Quick and convenient.
A clean mop every time.

EASY RELEASE
Integrated release lever avoids contact with soiled mop during disposal.

COMPACT DESIGN
Mop pads and telescoping handle fit in tight spaces.

CONVENIENT STORAGE
Storage cabinet mounts to the wall to keep mop pads and handle close at hand.

Spills can happen unexpectedly, creating hazards for patrons and staff which need to be cleaned up as quickly as possible to avoid injuries. Using a string mop and bucket can be time consuming and leaves the floor wet. The Rubbermaid Spill Mop is faster and easier, quickly absorbing liquid spills leaving a dry floor.

Rubbermaid Pulse Mop

Rubbermaid PULSE MOP

Clean more square meters in less time with the new Rubbermaid Pulse Mop. Industry leading microfibre technology combined with an on-board reservoir. User controlled ergonomic trigger handle dispenses three streams of cleaning solution with each press, which means cleaner floors faster, easier, and more effectively.

PULSE MOP

TRIGGER HANDLE

Dispenses 3 streams of cleaning solution with each press

NON-SLIP HANDLE

Ergonomic rubber handle prevents mop from slipping or falling when placed against walls.

LIGHTWEIGHT CONSTRUCTION

Weighs only 1.8kg when full with cleaning solution

QUICK CONNECT FRAME

45cm frame included, quickly removes to interchange with other frames available

ONBOARD RESERVOIR

High capacity refillable reservoir holds 621ml of cleaning solution. A clear window allows easy monitoring of fluid levels.

***RECHARGE CADDY**

Quickly refill the reservoir on the go via the recharge caddy. (*additional accessory)

Microfibre Systems

The complete microfibre solution that delivers superior hygiene results and improves productivity. Each fibre is split to 1/100 of a human hair to create an optimal number of surfaces to trap dust, dirt and bacteria Unlike traditional mops and cloths, TASKI Jonmaster System ultra microfibres collect and trap the dirt to leave surfaces cleaner and more hygienic. TASKI Jonmaster System ultra microfibres clean in two different ways, dry or damp/wet. When used dry, dust and dirt are attracted by static electricity. With damp/wet use, dirt and bacteria are picked up by capillary action

***TACT CLASS - Built in Filter Cleaning System**

Wet & Dry vacuums fitted with the Tact system feature uninterrupted airflow providing consistent high suction power, even for large amounts of fine dust. The filter cleans itself with powerful blasts of air directed through the top of the filter, blowing dirt and dust back down into the tank. Tact vacuums meet the highest standards for dust control on construction sites and in workshops.

TACT/TACT²= Automatic Filter Cleaning

TACT TE = Vacuum Auto Start-up when connected tools are turned on/off

Floorcare - Sweepers

BIN the BROOM...

Fine airborne dust is one of the biggest hazards faced by industry, and it is one of the biggest causes of respiratory illness. Implementing a program that collects the fine dust without making it airborne is the best way to keep everyone safe.

From manual and battery-powered walk-behind sweepers to industrial size ride-on sweepers, a Jasco Sweeper will help keep your facility free of debris and dust.

Our range of sweepers are designed to stand up to the most harshest or delicate environments.

Food Packaging

Packaging made from plants, not oil

The Ecoware products in this catalogue are part of a collective effort to create a future where food and food packaging waste is returned to the soils with zero-waste systems, reducing our reliance on landfills and toxic oil-based packaging. Jasco Distributing has joined Ecoware and a growing community making a commitment to this future. With the right products and partners, we can make a real difference.

Made from plants not oil

Ecoware products are made entirely from naturally occurring plants material.

Paper from managed plantations

Our paper comes only from responsibly managed plantations.

Non-toxic inks

Our inks are soy or water based therefore non-toxic.

Made from renewable resources

Our raw materials are produced by nature and annually renewable.

Commercially compostable

Ecoware products can be composted in a commercial facility.

Sustainable

Our raw materials provide a sustainable solution to oil-based food packaging.

Takeaway Containers - Compostable

Jasco Distributing stock a wide range of eco-friendly and general food packaging lines. To keep in-line with our sustainable business vision we have decided to feature our core range of eco-friendly packaging. In each category there are numerous other options available, (Freezer grade and microwavable containers, recyclable or oxo-degradable plastic cups, recyclable or oxo-degradable plastic containers, plastic cutlery etc...)

If what you are looking for is not featured, please call our Customer Solutions Team or your Account Manager for more information.

WHAT IS PLA? Polylactic Acid (PLA) = Bioplastic

Polyactic acid or polylactide (PLA) is a biodegradable polyester derived from renewable plant material. We use PLA derived from sustainable plant resources, such as corn starch, which has a carbon footprint up to 75% less than traditional packaging materials.

BAMBOO RANGE - OVEN SAFE, MICROWAVE SAFE, FREEZER SAFE...

Bamboo is one of the world's fastest growing plants. The bamboo fibre used is a byproduct sourced from existing industry, the waste material is a pulp substance that is then transformed into sustainable food packaging. The strength in molecular structure of bamboo provides a heavy duty and robust product. It is the ultimate all-rounder and it is microwave safe, freezer safe and oven safe to 220° c.

INNOVATIVE PACKAGING SOLUTIONS.

Innovative. Reliable. Foodsafe.

Over the past 36 years Castaway® food packaging products have been at the forefront of innovation for the foodservice industry. The core value of all Castaway® products is innovation, and the desire to create true value for our customers. From new packaging ideas, to building your brand with custom prints, we have a wealth of creative and technical expertise in delivering innovative and functional food packaging solutions to the foodservice industry.

Biodegradable* plastic

Increasingly, more of our plastic products are becoming biodegradable* through using our industry leading Eco-Smart® technology. This innovation allows traditional plastics to biodegrade through a series of chemical and biological processes, when introduced to a microbe-rich environment such as a modern landfill. This process unlike other “bio-plastics” does not compromise recyclability.

How it works

Our Eco-Smart® additive allows plastic to biodegrade* through a series of chemical and biological processes, when introduced to a microbe-rich environment such as a biologically active modern landfill.

Eco-Smart® accelerates the biodegradation of treated plastics by attracting microbes – microscopic organisms vital to the earth's ecosystem.

These microbes colonise on the surface of the plastic where they secrete acids that break down the polymer chain, allowing them to utilise the carbon backbone of the chain as an energy source.

Frequently asked questions

Are products made with Eco-Smart® certified recyclable?

Currently there are no recognised standard certifications for recyclability. A number of independent laboratories have been provided with samples of plastic made with Eco-Smart®. The tests indicated that Eco-Smart® does not affect the recyclability of plastics.

What prevents plastics made with Eco-Smart® from degrading in inventory or on the shelf?

Eco-Smart® treated products must be disposed of or kept in active microbial environments, such as a managed landfill, in order to biodegrade.* Warehouse and retail environments do not contain the microbes needed for biodegradation, so plastics treated

with Eco-Smart® have an unlimited shelf life and are completely non-toxic.

What is the manufacturing process for using additives?

Using the additive in the manufacturing process is easy to do and usually does not require any equipment modification. Eco-Smart® is added via a standard commercial gravimetric hopper, just as you would add a colorant into the extruder feed-throat. Eco-Smart® is usually loaded at 0.7–4% by weight.

Does Eco-Smart® contain any heavy metals?

Eco-Smart® does not contain any compounds that would be considered heavy metals, light metals or metal ions. Eco-Smart® is a combination of true organic compounds from oil and other nutrients found in the environment.

Does Eco-Smart® change the physical characteristics of plastic?

There are no noticeable changes to the physical characteristics of plastic such as tensile strength, glass temperature, melting temperature, transition rates, etc.

Does Eco-Smart® affect the plastic's performance at elevated temperatures?

No. Tensile strength and physical properties are maintained even in elevated temperatures. In temperatures exceeding the normal operating range for a specific resin, Eco-Smart® plastics would experience the same change in properties as the standard untreated plastic.

Ongoing Eco-Smart® Testing

The progress charts below show how Eco-Smart® products biodegrade over time. These tests are ongoing and the progress results will be updated as more data becomes available.

Eco-Smart polypropylene cups have been shown to biodegrade 30.2% after 498 days; Eco-Smart polystyrene lids, plates, bowls & cutlery have been shown to biodegrade 24% after 216 days; Eco-Smart P.E.T containers have been shown to biodegrade 27.4% after 498 days, under conditions that simulate a wetter biologically active landfill, using the ASTM D5511 standard test. Note that a stated rate of degradation does not mean the product will continue to decompose. Testing continues on all Eco-Smart products to track the rate of biodegradation. All data will be made available on our website: www.castawayfoodpackaging.co.nz

Napkins - Dispensing

TORK XPRESSNAP - Napkin Dispensing System

The Tork Xpressnap system is the ideal solution for food service outlets to minimise wastage and control napkin use. This compact dispenser delivers napkins one at a time, improving hygiene and reducing consumption by up to 25%, when compared to traditional dispenser napkins. Featuring AD-A-Glance customisable display window which serves as an advertising tool to promote your products and engage with your guests.

Kitchen Tidy Liners

How do Oxo-Degradable bags work?

A degradable additive is included in the basic polymer resin during the manufacturing process. The additive breaks the molecular chains so that at the end of its predetermined service life the plastic starts degrading in the presence of oxygen by a process of oxidation, which is accelerated by light, heat and stress. Finally bio-degradation is completed by micro-organisms, this stage can accurately be described as bio-degradation. At this point the material is no longer a plastic but has become a material capable of bio-assimilation.

Guest Amenities

HEALTHPAK.

HEALTH PAK GUEST AMENITIES - MADE IN NEW ZEALAND

Salon grade haircare, cosmetic grade body care, 100% vegetable based soaps, and natural ingredients all combine to make Health Pak's hair & skin care products the most sought after amenities. Whether you are a 500 room hotel, 10 unit motel, an urban backpackers, BnB or a boutique lodge, we will have a range to suit your property and delight your guests.

Select which options best suits your establishment, then contact our Customer Solutions Team or visit us online for more information on the complete list of products within each range. We will happily send samples and email through a quote to you.

HEALTHPAK.

ENVIRONMENTAL COMMITMENT

Hair & skin care products are all made using biodegradable formulations; All hair & skin care products are made from 100% vegetarian base; All hair & skin care products are made from sustainably sourced, GE Free ingredients; No toiletries contain any animal or petrochemical by-products; All cardboard boxes are made from 100% recycled, oxygen bleached carton board, printed using water based inks; All caps and bottles are fully recyclable; Formulations are NOT tested on animals.

TURN YOUR OLD USED HEALTHPAK SOAPS INTO BIO DIESEL...

Health Pak is now offering you the chance to return partially used Health Pak manufactured* soaps back to them and they we'll get them converted into Bio Diesel and Biodegradable Industrial Cleaners. That's right, we can help you recycle your old HP soaps!

For more information on this fantastic program, please contact your Jasco Account Manager or call our Customer Solutions Team. *Conditions Apply.

Dispensing Amenities

The Pacific Spa range of soap has been formulated to be luxuriously creamy with a scented silky feel. Whether for the bath, shower or hand soap, select from our luxury dispensed soap. Ideal for hotels, motels lodges and B&B's

Gloves Latex / Vinyl / Nitrile

BASTION - Progenics Dispensing System

This dispensing method is an effective infection control solution for use where hygiene is critical. Traditional glove box handling can increase contamination risks, as well as lead to glove wastage and higher operating costs. With the Bastion Progenics System, gloves are packaged in special boxes allowing gloves to be dispensed individually cuff first from the bottom of the box. This reduces the risk of contamination and minimises glove wastage.
